# ALLERGY SEASON

During allergy season, our pharmacists can provide essential support by offering over-the-counter medications like antihistamines and nasal sprays to relieve symptoms such as sneezing and congestion.

We also carry non-medication options like saline rinses and air purifiers. Our friendly team can help customers choose the best treatments, explain usage and provide tips on avoiding triggers.

Additionally, our pharmacists can assist with prescriptions for more severe symptoms and provide information on allergy testing services.

Don't let allergy symptoms get in the way of life. Speak to our pharmacy team today!
